Profile

Computer Engineering graduate focused on frontend development with React, Next.js and TypeScript. Hands-on experience building real-world applications, including a freelance website and a full-stack mobile app. Comfortable working with modern UI systems, REST APIs and scalable application structures.

Technical Skills

Languages	JavaScript, TypeScript, SQL
Frontend	React, Next.js, shadcn/ui
Mobile	React Native (Expo)
Backend	Node.js, Express
Databases	MongoDB, PostgreSQL (basic)
Tools	Git, GitHub, Postman, Docker (basic), AWS (EC2, S3 – basic)

Projects

- 2026 **Transfer Website — Ilha do Sal (Freelance)**, *Next.js + TypeScript*
 - Developed a responsive website for a local transfer service business
 - Built using Next.js (App Router) and TypeScript
 - Designed modern UI using shadcn/ui components
 - Focused on performance and user experience
- 2025 **Planify — Financial Mobile App**, *React Native + Node.js + MongoDB*
 - Full-stack mobile application for expense tracking and budgeting
 - Developed REST API and backend using Node.js and Express
 - Implemented JWT authentication
 - Managed MongoDB database structure
- 2026 **SmartFactoryPro (Industrial Platform Analysis)**, *IMASD*
 - Analyzed a production-level application built with Next.js, Node.js and Prisma
 - Improved TypeScript proficiency working with a real-world codebase
 - Studied backend patterns such as filtering, caching and API design
 - Created documentation to support system understanding and onboarding

Education

- 2025 **Bachelor's Degree in Computer Engineering**, *IPB — Polytechnic Institute of Bragança*

Additional Training

Full Stack Mobile Development (React Native, Node.js, REST APIs) — Udemy
Introduction to AWS Cloud — IPB
OutSystems Development — IPB

Certifications

Full Stack Mobile Development Certificate — Udemy
JavaScript Certification — Coursera

Languages

Portuguese Native
English C1 — Professional proficiency
